OVERVIEW

Motivated student from the Vocational school for computer programming and innovation, looking for a summer internship and possible job position as a junior developer. I am experienced in Java and web development with technologies like Spring Boot, Vue.js and Typescript. I have decent skills in SQL database development with MS SQL and cloud providers like Azure. I am seeking to expand my knowledge and apply it in a real workspace.

SKILLS

Fluent in Java and Javascript	High English level - C1	Teamwork and conflict resolution
Experienced in Front-end web	Excellent time management	Adaptability
Skillful at SQL database design	Good at problem solving	Communication

PROFESSIONAL EXPERIENCE

Production practice   **Feb 2024 - Present**

Technologica

Develop web application for cooking enthusiast. It should be built using Java, Spring Boot, H2 database and Thymeleaf. The web app must allow users to create and log in, also to view, create and add to favourite recipes by other users.

Production practice   **Feb 2022 - July 2022**

Scalefocus

Develop car rental system that would allow the user to rent a vehicle for a specific period of time. The system is written in C++ and the information is displayed directly on the console.

EDUCATION   **Sep 2020 - Present**

Vocational school for computer programming and innovation

Major: Application programing with Java
